

# Who's who at London Councils a guide to senior staff

# who is london councils?

London Councils is committed to fighting for more resources for London and getting the best possible deal for London's 33 councils.

Although much of our work consists of lobbying the government and others on behalf of our member boroughs, we also develop policy and do all we can to improve the services they deliver. We also run a range of services ourselves, all designed to make life better for Londoners.

We are a cross-party organisation, funded and run by our member authorities to work on behalf of them all, regardless of political persuasion.
