This guide provides supporting information to help you complete the Freedom Pass application form.

Your main and primary residence must be in Westminster.

You need to use another form if you are applying on grounds of physical disability or learning disability. Because of the severity of the disabling conditions described by Government guidance as defining eligibility for a Disabled Person's Freedom Pass, it is expected that most applicants will have received services from a specialist health professional in the twelve months prior to their application.

The Government guidance makes clear that the Council may need to consult with specialist health professional(s) in deciding whether you are eligible for a Freedom Pass. Therefore, please give complete information about these professionals on the application form, and tick the box indicating that we have your permission to contact them.

Although information from health professionals is considered, the final decision about whether to issue you with a Freedom Pass is made by the Council in accordance with the law.

PAGES 4 and 5 of application form

It is important that you understand the conditions on which a Freedom Pass may be issued to you. Please read all items in this declaration carefully before signing and dating it, as your signature indicates that you have done so.

A representative or guardian may sign the form on your behalf if you are unable to do so. Unsigned forms will be returned.

Please note it is an offence under the law to make a false statement in order to evade the payment of public transport fares.

NEW APPLICATION

Section H – To be completed by your psychiatrist or GP

A freedom pass requested on mental health grounds should only be submitted for those applicants who have had their driving licence revoked due to their mental health condition or if they applied for a licence now would have it refused following medical assessment on the grounds of their current mental health. The applicant's ability to drive is not a factor.

The eligibility criteria is often confused regarding people that are not in a position to drive, however it does not matter whether the applicant can actually drive or not, or even if the applicant had never learnt to drive or ever wanted to drive. The criteria state clearly that the applicant would be unable to obtain a licence due to their current mental health condition.

1. Please tick one:

- The applicant has a mental health condition or is prescribed medication for a mental health condition that makes the applicant unfit to drive a motor vehicle (other than the persistent misuse of drugs and alcohol), and that would result in an application for a driving licence being refused under the Road Traffic Act 1988 (physical fitness).

OR

- The applicant does not meet the criteria as set out above; however, they currently receive a mental health care package from Westminster Social & Community Services (their application will be considered for a discretionary pass only).

OR

- The applicant has a primary mental health condition that is related to the persistent misuse of drugs or alcohol. (Please note people with a **primary diagnosis of alcohol or drug misuse are specifically excluded** from holding a Disabled Person's Freedom Pass by the Transport Act 2000.)
Therefore this application will be refused.

2. Please indicate category:

- Category B: Severe anxiety states or severe depressive illnesses
- Category C: Acute psychotic disorders of any other type
- Category D: Hypomania / Mania
- Category E: Chronic schizophrenia and other chronic psychoses

NEW APPLICATION

3. Have you advised the applicant not to drive a motor vehicle of any type?

Yes **No**

4. Is the applicant's condition expected to persist in it current severity for at least the next 12 months?

Yes **No**
