Introduction

Welcome to the prospectus for the London Councils European Social Fund (ESF) Community Employment Programme 2014-2020.

London Councils' ESF Borough programme is part of the European Structural and Investment Funds Growth Strategy¹ for England in 2014-2020.

The European Structural Investment Funds

The European Structural and Investment Funds (ESIFs) are the European Union's main funding programmes for supporting growth and jobs across EU member states. They form a small but important part of the UK government's overall growth activity.

In England, for 2014 to 2020 the programmes consist of the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD). These have been brought together into a single Growth programme with individual operational programmes aligned to maximise support for jobs and growth.

The Growth Programme is delivered across England's 39 Local Enterprise Partnership (LEP) areas, each of which has an ESIF Strategy to support local delivery. The £6 billion funds within the Growth Programme have been notionally distributed to LEP areas. ERDF can fund activity such as support to SMEs, ICT, Low Carbon and research and innovation. ESF supports employment, skills and social inclusion.

The London 2014-2020 ESIF Strategy² sets out the key areas for ESF investment in London and aligns to the London Enterprise Panel's (LEP's) three skills and employment themes: promoting sustainable employment and progression outcomes, ensuring individuals and employers are better informed to drive the skills and employment system and engaging with London's businesses to help drive growth in the Capital.

ESF in London is managed by the Greater London Authority's (GLA) European Programmes Management Unit (EPMU) which has been designated by government as an Intermediate Body for ESF and ERDF.

The LEP, through the GLA, London Councils and other local partners, has developed a range of ESF provision to meet local needs. There are five ESF Co-Financing Organisations for 2014-20 in London. They are:

- Greater London Authority (GLA)
- Skills Funding Agency (now the Education and Skills Funding Agency - ESFA)
- Department for Work and Pensions (DWP)
- Big Lottery
- Her Majesty's Prison and Probation Service (HMPPS)

²<https://lep.london/publication/european-funding-strategy-2014-20>

ESF Investment Priorities

The 2014-2020 ESF Programme has two main Priority Axes, each with a number of Investment Priorities:

Priority Axis 1 – Inclusive Labour Markets

- Priority 1.1 **Access to Employment for Job-Seekers and Inactive People** - Improving the employability and skills of the unemployed and economically inactive people
- Priority 1.2 **Sustainable Integration of Young People** - Employment and Skills activities targeted at young people who are not in education, employment or training (NEET) or at risk of becoming NEET
- Priority 1.3 **Youth Employment Initiative** - This will focus on helping young people, particularly those not in education, employment or training (NEET) to participate in the labour market and learning in areas eligible for the Youth Employment Initiative
- Priority 1.4 **Active Inclusion** - To address the root causes of poverty which creates barriers to work so more people move closer or into employment

The London Councils' ESF Community Employment Programme

Priority 1.4 – Active Inclusion

The Community Employment Programme is embedded and delivered at the heart of the community by voluntary and community sector (VCS) organisations that have access to and are best positioned to meet the needs of local residents in partnership with the London Borough of Enfield.

The London Councils ESF Community Employment Programme will address the root causes of poverty and barriers to work so more people move closer or into employment.

The programme aims to fund projects which promote the employability of excluded individuals in the community. Projects should equip individuals with the personal and occupational skills they need to access and compete effectively in the labour market.

The Programme will engage, support and deliver innovative, individually tailored programmes with end to end support to meet the needs of their residents and add value to mainstream provision.

The London Councils Community Employment Programme will target residents who are long-term unemployed (25 per cent) and economically inactive (75 per cent).

London has significant levels of child poverty. 700,000 children living in London are living in poverty, 37 per cent of all children in the capital. While poverty rates are higher for everyone in London than nationally, this gap is larger for children than for any other group³. London Councils is keen to fund projects under this ESF programme that also contribute to reducing child poverty in London by raising family income and skills.

This Prospectus sets out the criteria and conditions for applying for this grant funding.

PROJECT SPECIFICATION

1. Programme Specification

Introduction to the London Borough of Enfield Council

Background / Context

Enfield has the fifth highest population of the 33 London boroughs, with 313,900 residents, of whom 65 per cent are of working age.

Worklessness is a concern, as 27 per cent of all working age residents are currently economically inactive and 10 per cent are unemployed.

Enfield has the seventh highest number of people claiming Jobseeker's Allowance amongst the London boroughs and has seen the biggest rise in the proportion of working age residents claiming out of work benefits of any London borough since 2001.

Long-term unemployment amongst older people is growing: 43 per cent of unemployed people aged 50 to 64 remain unemployed after a year out of work, compared to 35 per cent of unemployed people aged 25 to 49.

A large proportion of the local population live in wards which are amongst the top 10 per cent most deprived in England, with transient communities and multiple levels of deprivation, including low employment levels and high levels of intergenerational worklessness. The highest concentration of the population lives in the eastern wards, particularly the south-eastern wards of Edmonton Green and Upper Edmonton. The number of people of working age on out-of-work benefits represents an estimated nine per cent of the working age population.

Enfield Council is committed to continuing to work closely with our communities, to provide a range of joined up solutions to engage and support some of our most excluded residents to become active in the labour market. We will achieve this through a range of bespoke projects working with diverse community organisations representing a wide range of ethnic groups and our other priority communities, including over 50's and lone parents.

Enfield has a well-established network of statutory and non-statutory partners that can enable this work, maximise the prospects of success and help to provide sustainable prospects beyond the lifetime of the ESF Community Employment Grant.

2. Enfield Community Employment Programme

Project description and overview of requirements

The Enfield ESF Community Grants Programme will address the root causes of poverty and barriers to work, so more people move closer to or into employment.

The Community Grants Programme will be embedded and delivered at the heart of the community by voluntary and community sector (VCS) organisations that have access to and are best positioned to meet the needs of local residents in partnership with the London Borough of Enfield.

The programme aims to fund projects which promote the employability of excluded members of our community. Projects should equip individuals with the personal and occupational skills they need to access and compete effectively in the labour market.

The London Councils ESF Community Employment Programme will work through ESF Priority 1.4 to support people furthest away from the labour market through:

- awards of small grants (£20,000)
- given to small non-governmental or VCS organisations in Enfield (eligibility criteria apply)
- for projects which help long-term unemployed and economically inactive people move into or closer to the labour market (in line with the [Enfield Councils Employment and Skills Strategy](#)).

We expect projects to:

- deliver for a maximum of twelve months, with a further two months to close projects
- contribute to the [2014-20 London European Structural & Investment Funds \(ESIF\) Strategy for London](#).

Community Employment Grants will enable small third sector organisations that would not otherwise be able to access ESF, to access small grants through simplified application arrangements.

Grants will be awarded for projects that demonstrate progression towards the labour market, but do not duplicate provision that is available through mainstream activity. Grants will strengthen the ability of small third sector organisations to deliver employment and skills activities to disadvantaged people.

The Programme will engage, support and deliver innovative, individually tailored projects with end-to-end support to meet the needs of local residents and add value to mainstream provision.

This prospectus sets out the criteria and conditions for applying under this round of funding.

3. Programme Priorities

The programme will engage specific priority groups. To submit an application under this programme, you must first decide which priority group(s) your organisation will support.

Your project should target one or more of the following groups that are resident in the London Borough of Enfield:

- a. Women, in particular Somali, Bangladeshi and Turkish women and those who are economically inactive due to parental (pre-school children) and/or caring responsibilities
- b. People with health issues, particularly mental health or a disability
- c. Lone parents and residents living in temporary accommodation and in receipt of Discretionary Housing Payments
- d. Residents who are 50+ years old with low-level or no qualifications
- e. Ex-offenders
- f. Homeless.

It is the aim of the Enfield ESF Community Employment Programme for each round to include a mixture of activity supporting a broad range of participants from the priority groups. The appraisal and award process will reflect this aim.

4. Programme Activities and Outcomes

All projects funded through the Enfield Community Employment Programme must have a focus on employability and deliver an innovative and individually tailored approach to employment support which responds to the specific needs of residents.

Your project activities must help unemployed or economically inactive people who are at particular disadvantage in the labour market move towards employment.

The focus of this funding opportunity will be to support out-of-work Enfield residents aged 25 and over who are either long term unemployed or economically inactive to move towards obtaining relevant training/qualifications or securing employment opportunities.

A successful project would aim to deliver against the outputs and results set out in this project specification.

The project should:

- Deliver an innovative and individually tailored approach to support which responds to the specific needs of Enfield's long-term unemployed or economically inactive residents
- have interactive and creative methods to engage unemployed Enfield residents from across different parts of the borough
- Deliver end-to-end support to residents, for example:
 - initial assessment
 - action planning
 - advice and career counselling
 - accredited, certificated and non-accredited training
 - support to raise levels of basic skills
 - pathways onto other provision or support for continued progression
 - work experience/voluntary work opportunities
 - job search assistance and other support necessary to secure employment
 - provide in work support once participants are in employment
- focus on skills and roles that local employers identify as a priority and where there is expected to be ongoing demand, to maximise chances of sustainable employment for participants
- improve the employability and skills of long term unemployed and economically inactive Enfield residents
- support the boroughs Skills and Employment Strategy

Providers must have:

- experience of delivering innovative employment support in Enfield, or similar local authority areas
- an excellent understanding of key service provision in the borough - the provider must consider how they will establish links with suitable teams, and how this project will contribute and complement existing borough services
- a good understanding of the Council's and Job Centre Plus' employment initiatives and its outcomes
- familiarity with and a willingness to assist in delivering the Council's key strategic objectives and performance indicators around employment
- access to premises to deliver the service, with the flexibility of being able to deliver from suitable co-locations.

Applicants should demonstrate:

- a clear understanding of the needs of their priority group
- how planned provision is appropriate to meet employers' needs
- how they will ensure they will deliver the target numbers and results
- that participant progression is integral to the design of the project
- a commitment to signposting participants through knowledge of specific, relevant, local progression pathways.
- a commitment to signposting individuals who do not meet the project criteria to alternative support
- experience of providing successful employment or capacity building advice.

Geographical targeting

Participants of this project must be residents of Enfield or have an evidenced connection to the borough (for example, in temporary accommodation or supported housing paid for by Enfield Council).

Target Groups

The Enfield ESF Community Employment Grant 2014-2020 will support long-term unemployed and economically inactive individuals furthest from the labour market into or closer to employment, through a range of support.

Participants must be aged 25 years or more and be representative of the specific target groups outlined below.

| ESF Target Groups | % |
|----------------------------------|----------|
| Economically Inactive | 75% |
| Long-term unemployed | 25% |
| Women | 51% |
| Older People (50 years and over) | 18% |
| Ethnic Minorities | 60% |
| Disabled (self-declared) | 22% |
| Lone Parents | 16% |

Your project will be expected to enrol participants (starts) from these target groups and should meet the percentages as shown in the tables above (note: one individual may be in one or many of the target groups). Applicants will need to consider the appropriate level of childcare/care support to be provided. London Councils expects all projects to provide childcare/care support for participants as required in order to enable them to access this and other support provided on London Councils' ESF programme.

When designing your project and writing the application, you should give careful consideration to which target groups you will be supporting, how you will reach and assist them into employment.

Where you do not have experience in reaching and working with certain groups, your application must show an agreed partnership with a delivery partner with the required experience and outreach capacity. If a potential participant is not from any target group, you will still be expected to assist them either directly or through signposting.

Suggested strategic partners

The Council is keen to encourage effective local partnerships bringing key agencies together such as Jobcentre Plus, local Colleges, the NHS, Clinical Commissioning Groups, Charities and others to achieve common goals. These positive working relationships will enable the borough, in partnership with VCS organisations in Enfield, to continue to address unemployment and low skills more effectively.

Source of match funding

The match funding for these projects comes from Enfield Council's core funding.

Grant payment

The programme will operate a staged payment model, which follows London Councils community grants payment model. Successful applicants will receive payments in four instalments:

| | |
|--------------|---|
| * 25% | Paid to grant recipients on signing a grant agreement |
| 25% | Paid when grant recipients can demonstrate actual spend (defrayal) of 25% of the total grant amount |
| 25% | Paid when grant recipients can demonstrate actual spend (defrayal) of 50% of the total grant amount |
| 25% | Paid at the end of the project on the final submission of actual expenditure reports |

* Subject to conditions of Grant.

5. Employment Status Eligibility

Individuals identified as long-term unemployed or economically inactive may be at particular risk of social exclusion as they may not be supported through mainstream services. The Community Employment approach is to fund activities that promote social and economic inclusion and all providers will need to demonstrate that projects contribute to the priority of targeting the long-term unemployed and economically inactive.

It is recognised that some residents will not be able to move directly into employment at the end of the project but, where employment is a realistic target for participants, this is the preferred outcome. Each project should identify what percentage of participants will move into employment. Projects should also demonstrate how all other participants will have made measurable progress towards employment.

Providers will need to demonstrate that their projects will provide participants who are not employed by the end of the project with an action plan going forward and pathways onto other provision or support for continued progression. Providers must also demonstrate a commitment to signposting participants through knowledge of specific, relevant, local progression pathways.

| | |
|--------------------------|---|
| Economically inactive | <p>"Inactive" are persons not in employment when joining your project, have not been seeking work within the last 4 weeks before commencing on your project and/or are unable to start work within the next 2 weeks of joining your project. Economically inactive is not defined by the benefits a participant is claiming. A person may be economically inactive if they:</p> <ul style="list-style-type: none"> • Are not working and not available to start work immediately • Are out of work, but are not available to start tomorrow should a job become available |
| Long-term unemployed | <ul style="list-style-type: none"> • Persons who are available for and actively seeking work • Unemployed continuously for 12+ months |
| Eligibility requirements | <p>Please refer to the London Councils ESF Programme 2014-2020 Eligibility Guidance for further information on the Community Employment programme eligibility and evidence requirements.</p> <p><i>The focus of this funding opportunity will be to support out-of-work Enfield residents aged 25 and over</i></p> |

6. Funding Requirements – Applicant Eligibility

Only one application per organisation can be submitted for each round. Successful Round 1 applicants are allowed to apply for the Round 2 Enfield ESF Community Employment Grant.

London Councils and the London Borough of Enfield, through the ESF Community Employment Programme, will not assess funding proposals from any organisation that does not meet the conditions listed below. This programme will only fund organisations that are/have:

| | |
|--|--|
| Not for Profit: | The programme cannot fund organisations that make a profit. However, the programme can fund social enterprises and other organisations that generate surpluses, as long as the organisation's governing documents show that the surplus is reinvested to support the aims of the organisation. This must be reflected in the accounts you give us. |
| Constituted before 1st August 2016 | Organisations funded by London Councils must have a constitution or governing document that is signed and dated, and defines how the organisation will operate. A governing document can be a formal constitution, a memorandum or articles of association. |
| Income | <p>Have income of less than £150,000 in the 2017-2018 financial year.</p> <p>OR</p> <p>Have income of less than £250,000 if you are an organisation that works exclusively with people with a disability.</p> |
| Financially solvent | Organisations' most recent accounts and bank statements must show a positive net worth position, as organisations funded through the programme must not have liabilities that are greater than their current assets. |
| Constituted to work in the Borough | Your organisation should be constituted to work in the London Borough of Enfield and be based within the borough. Services also need to be provided to residents of the borough. |
| Debtor | Organisations that are a debtor to Enfield Council will not be eligible for funding. |

| | |
|----------------------------|--|
| A bank account | A bank account in the organisation's name that requires two signatories: This information is needed in order to check that there are sufficient financial controls in place. If you do not have a bank account at the time of applying and are willing to set one up if your application is successful, please attach a note to your application stating so. |
| Premises agreements | Organisations based in or using Enfield Council buildings must have an appropriate property arrangement in place for the duration of their project. |

7. Expected Project Outputs and Results

The Enfield ESF Community Employment Grant expects funded projects to deliver a range of outputs and results. The table below has been modelled to reflect the average expected outputs and results for a grant of £20,000.

Please note that you may apply to deliver more or fewer outputs and results than those listed below. However, if numbers are different you must provide a full explanation of the reasons why in your application, otherwise you may be marked down.

Key Facts - Round 1

- A maximum of nine projects will be funded to deliver the programme
- The maximum funding available per project is £20,000
- Project Delivery will be for 12 months – February 2019 to February 2020
- Maximum of three months project closure – March 2020 to April 2020

| Outputs | Number |
|--|---------------|
| Number of <u>long-term unemployed</u> participants enrolled onto the project | 4 |
| Number of <u>economically inactive</u> participants enrolled onto the project | 12 |
| Minimum total number of participants enrolled | 16 |
| Number of participants receiving 6+ hours of support (IAG, job-search, mentoring, training, 1-2-1) | 16 |
| Number of participants supported towards achieving a Level 2 (or below *) qualification | 10 |
| Results | Number |
| Number of participants progressing into further education or training** | 6 |
| Number of <u>long-term unemployed</u> participants into employment *** | 1 |
| Number of <u>economically inactive</u> participants into job search/employment *** | 5 |
| Number of participants in sustained employment for 26 out of 32 weeks. | 1 |
| Maximum funding available | 20,000 |

* Including basic skills qualifications in literacy (English), numeracy (Maths) or English as a second language (where English is not the participants 'mother tongue') at entry level or above

** Persons who have received ESF support and who are newly engaged in education (lifelong learning, formal education) or training activities (off-the-job/in-the-job training, vocational training, etc.) immediately upon leaving

*** Persons who are employed (part-time, full-time, self-employment and Apprenticeship) working a minimum of 8 or more hours a week

8. Application Schedule

Please find below the application schedule.

Dates highlighted in red below are dates that applicants will need to be available, should their application be successful. The dates outlined below also relate to a week.

| Application and Scoring | Start | End |
|---|---------------------------------|-------------|
| Borough Launch | 9/10/2018 | |
| Workshop (Programme and eligibility) | 22-26 October 2018 | |
| Deadline for applications | 12 noon 16 November 2018 | |
| Initial due diligence checks | 19/11/ 2018 | 23/11/ 2018 |
| Applications scored by London Councils | 19/11/ 2018 | 23/11/ 2018 |
| Applications scored by Enfield Council | 19/11/ 2018 | 23/11/ 2018 |
| Internal panel meeting | 28/11/ 2018 | |
| External appraisal panel meeting | 29/11/ 2018 | |
| Notifications sent to applicants | 30/11/ 2018 | |
| Right to Reply | 3/12/2018 | 14/12/2018 |
| Due diligence checks | 3/12/2018 | 14/12/2018 |
| Right to Reply panel approval | 17/12/2018 | |
| Funding Agreements and Delivery | Start | End |
| Pre Agreement meeting with provider | 18-21 December 2018 | |
| Pre Agreement meeting actions due date | 14-17 January 2019 | |
| Eligibility, Output, Activity, Result and claim/Workshop | 18 January 2019 | |
| Funding Agreement sent to the Provider | 21 January 2019 | |
| Funding Agreement signed by provider and two copies returned to London Councils | 28 January 2019 | |
| Advance payment to provider processed | 29 January 2019 | |
| Project delivery commences | 01 February 2019 | |

9. Added value

London Councils and ESF wish to support projects that could not be delivered without its funding and which bring additional benefits to local provision and individuals.

Your project may provide added value because it increases the number of people who receive the support they need to move towards work, or, because it allows you to do more for people than would otherwise be permitted by other funding streams. Alternatively, this funding may allow you to continue existing activity which would otherwise be cut back or it may allow you to develop new activities or to fill a gap in provision.

Subject to the eligibility criteria in Sections 3 and 4, organisations which receive a grant from any London Councils or ESF grants programme are welcome to apply for funding under this programme. However, your application should make very clear what additional activity, outputs or achievements you will deliver through this project. Organisations which have previously received a London Councils grant should note that, unlike other grants, the programme cannot fund general organisational costs, only those which relate solely to the cost of the ESF funded project.

ESF Employment Support Programmes

Where possible applicants are expected to work with other London ESF Programmes' providers, some of which are managed by organisations such as:

- Greater London Authority (GLA)
- Education and Skills Funding Agency - ESFA
- Department for Work and Pensions (DWP)
- Big Lottery
- Her Majesty's Prison and Probation Service (HMPPS)

Details of their provisions can be found at:

- https://lep.london/content_page/european-social-fund
- <https://www.biglotteryfund.org.uk/global-content/programmes/england/building-better-opportunities/london>

You must ensure there is no duplication of participants or activities with the above ESF programmes in London.

10. Partnership working

London Councils wishes to support effective partnership working in project delivery. We strongly advise delivery organisations to work with partners where complementary expertise is required to deliver a full package of support. For example, where specialist training outside of the provider's core competencies is required, we would prefer that this provision be outsourced to an experienced specialist provider, rather than providers attempting to establish a new training resource.

You are also expected to form partnerships with other organisations to recruit people from all target groups. You will be scored accordingly, so please take time to secure agreements with other providers – failure to include detail on how all target groups will be recruited and assisted may mean your application could fail.

We expect that providers will have established, or be in the final stages of establishing, partnerships prior to submitting their application.

All providers intending to work in formal partnership (i.e. where the Applicant, as lead partner, will be paying other partners) must submit partnership agreements with their application which formalise roles and responsibilities within the partnership.

As a minimum, a partnership agreement should contain sections on:

- Who the sub-partners are
- Roles and responsibilities of each sub-partner
- The timescale for delivery
- Equal opportunities (that the partner must ensure equality of opportunity in line with the lead partner's equal opportunities policy and London Councils and ESF requirements)
- Sustainable development

- Monitoring and reporting arrangements (including what information the partner is required to keep, how often they are expected to report and deadlines for reporting to the lead partner)
- Risks/mitigation/contingency plans/non-delivery penalties/dispute resolution
- Audit (that the project will be subject to audit)
- Management of the partnership (e.g. steering group/partnership meetings)
- Due diligence checks of partner organisations (including are they solvent/eligible for London Councils funding)
- Termination arrangements
- Finance and payments (including how much money will be paid to the sub-partner organisation by the lead organisation and what the money will cover)
- Data and record keeping requirements in line with ESF rules on document retention and current legislation.
- Publicity, branding and marketing requirements, in line with ESF rules on branding and publicity.

This type of agreement ensures that project delivery by project sub-partners takes place as agreed and ensures that each sub-partner is clear about what it needs to achieve as part of the project.

11. Cross Cutting Themes

London Councils' ESF Programme 2014–2020 will focus on the ESF Investment Priority 1 – Inclusive labour Markets to improve the employability and skills of the unemployed and economically inactive people.

There are also two Cross Cutting Themes that must be addressed in each funded project: Sustainable Development and Equal Opportunities and Non-Discrimination.

Sustainable development

The Sustainable Development principle of social, economic and environmental organisational responsibilities builds on the approach adopted in the 2007-2013 ESF programme and lessons learned during that programme.

These sustainable developments were defined as developments which provided:

- skills that businesses demand and require – now and in the future (support for the economy by expanding the labour market);
- opportunities to allow everyone to fulfil their potential (support for social justice); and
- environmental protection and enhancement through the delivery of projects (support for the environment).

The objectives for ESF Programme 2014-2020 will be pursued in line with the Sustainable Development principle, including the aim of preserving, protecting and improving the quality of the environment as well as the need to prepare for expected changes to the environment and climate.

London Council's ESF Community Employment Programme will also support the Social Responsibility aspect of the Principle by achieving progress that recognises the needs of everyone and assists participants towards social inclusion and independent living through employment.

Therefore, project providers must have sustainable development governance, policies and implementation plans that explain:

- a) their commitment to promoting sustainable development and complying with relevant EU and domestic environmental legislation; and
- b) how the commitment will be turned into action at project level.

During the life time of each ESF Community Employment Programme project, London Councils and the GLA will be assessing compliance to these policies and plans.

Projects will be monitored, and this will include basic checks such as ensuring that sustainable development policies and implementation plans are in place and that appropriate action is being taken to implement them.

Therefore, your application should demonstrate an understanding of the need for good environmental performance and management in keeping with the ethos and achievement of sustainable development in the UK. All projects will be required to consider impact in relation to; energy, water, waste, purchasing and transport.

You should also demonstrate how you will integrate relevant aspects of sustainable development into courses you run and/or use the environment as a medium for training delivery.

You are required to provide a copy of your sustainable development and/or environmental policy at the application stage. If your organisation does not have a sustainable development policy, please include a statement with your application explaining that the organisation does not yet have a sustainable development policy. Any organisation selected for London Councils ESF Community Employment Programme funding that does not yet have a sustainable development policy will be required to implement such a policy by the end of the first year of delivery.

Equal opportunities and non-discrimination

London Councils' ESF Community Employment Programme will also promote equal opportunities and non-discrimination. All delivery partners will be required to adhere to the principles and processes set out in EU and UK equality legislation.

The principles promote equality into the preparation, implementation, monitoring and evaluation of ESF funded activity:

- no exclusion on the grounds of protected characteristics
- projects are designed to meet the needs of all potential participants
- services are responsive to the needs of all communities and under-represented groups
- support is targeted towards under-represented communities where relevant
- responsiveness to, and inclusiveness of, under-represented groups in delivery and management.

The ESF 2014-20 programme builds on the lessons learned from the ESF 2007-13 programme, including the findings of an evaluation of the mainstreaming of gender equality and equal opportunities within the ESF in England in 2010⁴.

⁴ Evaluation of Gender Equality & Equal Opportunities within the European Social Fund by Carol McNaughton Nicholls, Martin Mitchell, Ashley Brown, Nulifer Rahim, Emma Drever and Cheryl Lloyd

The lessons learnt can be found in research published in 2011 that focussed on the engagement of women in ESF provision⁵ and an evidence report published in August 2013 on helping disabled people.

As a result, there is good practice guidance in promoting gender equality. It includes a checklist that will be used to help inform core criteria for project selection along with other equality-related criteria.

The principles of equal opportunities are embedded in London Councils' project selection arrangements, grant performance management and monitoring.

In support of the principles, the ESF Community Employment Programme will target groups such as long-term unemployed people, inactive people, lone parents, disabled people, people from ethnic minorities, and older people, and we have set output targets to ensure that we help appropriate numbers from these groups.

The strategy section makes clear that as the economy improves, our focus will increasingly be on those who face multiple disadvantages.

All ESF activities should be accessible to disabled people and responsive to their needs. The investment priorities on access to employment and active inclusion can support activities focused on improving the employability of disabled people and those with health conditions. Active inclusion will help those furthest from employment and who often experience other disadvantages.

People from ethnic minorities should be able to access ESF provision in all investment priorities. Interventions must be tailored to the needs of people from different ethnic minority groups in each locality, and where appropriate targeted on specific groups. There is a strong case for interventions targeted at groups with low employment and high inactivity rates in the access to employment and active inclusion investment priorities, e.g. women of Pakistani and Bangladeshi origin, especially in areas with high concentrations of people from ethnic minorities.

Activities in the access to employment, active inclusion and access to lifelong learning investment priorities will respond to the needs of older people. Specific activities will be delivered to help improve the participation of older women, depending on local needs.

Equality between men and women

Although female participation in the English labour market has increased, there is still a gender gap in employment of 11.7 per cent with a male employment rate of 81.6 per cent and a female rate of 69.9 per cent (for those aged 20-64).

Part of the gap can be attributed to different levels of inactivity in the labour market (26.1 per cent for women and 13.5 per cent for men, aged 20-64 in England).

Labour Force Survey (LFS) data show that, at a UK level, 25 per cent of economically inactive women would be interested in working.

The Office for National Statistics (ONS) report 'Women in the Labour Market' (2013) explained that the low ranking for female employment rates in London and Birmingham was linked to the diverse ethnic population with some women not in work due to looking after families. Looking at the most recent city data, Birmingham has the lowest employment rate for women (55.9 per cent for women aged 16-64). Help should be aimed at inactive women

⁵ Skills Funding Agency: Engaging unemployed women in ESF funded training: research by National Institute of Adult Continuing Education for the Skills Funding Agency. September 2011

from ethnic minorities in England's cities, including those with caring responsibilities (child or elder care) and who are multiply disadvantaged.

The extension of the state pension age for women has increased the number of older women in the scope of unemployment. Since 2010 there are elder (over 50) women in work and more looking for work – employment is up 655,000 and unemployment up 14,000 (UK figures). Disadvantaged older women should be targeted for support if they wish to find work (or stay in work).

Some women want to work longer hours. There are 4.8 million females in England who work part-time and 1.5 million males. The majority work part-time because they want to – figures are not available for England but at a UK level, only 743,000 out of 6.07 million women (12.2 per cent) work part-time because they couldn't find a full-time job.

London Councils and ESF funding within this Community Employment Programme will be used to help address these issues. Activities for ESF support should include innovative outreach and holistic support with a vocational focus. Providers must consider activities and support for at least one of these groups:

- Inactive women from ethnic minorities, including those with child or elder care responsibilities, and who are often multiply disadvantaged. Barriers include: childcare; lack of skills or work experience due to starting family at a young age; no opportunity to acquire skills before starting a family.
- Lone parents. Barriers include: inflexible jobs/employers (poor work/life balance), concerns about possible financial instability and lack of skills/recent skills. Examples of activities to be supported include job search skills, vocational training, remedial training and basic skills support.
- Disadvantaged older unemployed women. Barriers include age discrimination, low confidence and elder care responsibilities. Activities to be supported include job search training, skills refresher training and mentoring/confidence building.
- Women who are inactive but who would be interested in working. Barriers include lack of motivation and confidence, lack of skills, outdated skills and difficulties in travelling to work. Activities to be supported include confidence building support, job-search training, job-specific training, work experience and mentoring support.
- Women seeking career advancement and/or progressing from part-time to full-time work, or at least increasing their hours at work. Barriers include seasonal work, sectors with a high concentration of part-time work and age (younger people are more likely to be underemployed). Activities to be supported include upskilling/vocational qualifications and identifying progression routes. (Investment Priority 2.1)

Project applicants submitting applications will be required to explain how they will actively promote gender equality through the design and delivery of their projects. For example, a grant application for in-work training should require the applicant organisation to explain how it will ensure that female employees will have access to support, including those who may be working part-time and/or have childcare needs.

Providers targeting disadvantaged people and other groups are also required under the Equality Act 2010 to do so with a corresponding gender focus.

This will include actively encouraging more women to take part in the programme, as well as making sure that the type and nature of support offered is appropriate and helps meet the needs of women, including disadvantaged women.

Programme providers will be expected to consider the needs of women in many key areas of design and delivery of their services, for example by:

- promoting gender equality throughout their recruitment process

- offering information, advice and guidance
- providing or procuring childcare/care support where this might be a barrier to participation
- ensuring that the structure and content of the activities delivered are suitable and appropriate for women and men
- ensuring that provision is accessible, flexible and gender-sensitive where necessary.

London Councils will ensure that there is regular monitoring of the participation rates for women and men. Results data will also be monitored and reported to the GLA's European Performance Management Unit (EPMU).

12. Monitoring and reporting on your project

London Councils has to report to the Managing Authority for ESF on the progress of the ESF programme each quarter as part of the procedure for claiming funds. These reports will include data on participants, on project activities and on total expenditure.

Successful applicants will be required to submit monthly participant data (with appropriate evidence), quarterly performance reports and claims. These reports will enable London Councils to meet the ESF and its own reporting requirements but will also form the basis for monitoring your project progress and achievements. Organisations will be given full advice in the pre-agreement phase on the information that must be recorded and reported and project procedures and systems.

Employability Performance Rating

ESF funded projects in London are also required to implement the Employability Performance Rating system. The Performance Rating is a comprehensive tool to benchmark the achievements of employability delivered by service providers in London.

The rating system awards a rating of between four and zero stars against three key areas: Grant Performance, Quality and Grant Compliance.

| Key Performance Area (KPA) | Weighting of the KPA | Indicators | Weighting of Indicator |
|----------------------------|----------------------|---|------------------------|
| Grant Performance | 60% | <ul style="list-style-type: none"> • Delivery against grant targets • Delivery against grant diversity targets | 48% 12% |
| Quality | 30% | <ul style="list-style-type: none"> • Conversion Factor • Self-assessment of quality • Participant Satisfaction | 12% 9% 9% |
| Grant Compliance | 10% | <ul style="list-style-type: none"> • Grant compliance and provider pro-activity | 10% |

The Performance Rating is collected from funded projects quarterly with results made public and published biannually on the London Datastore.

More information regarding the Employability Performance Rating requirements will be provided during the grant agreement process and the reporting systems will be provided to you. However, an overview of the requirements can be found at: <https://data.london.gov.uk/dataset/employability-performance-rating-epr-annual-ratings>.

13. Project Finance

Organisations may apply for grants of £20,000. There will be £183,000 of funding available for this round and it is envisaged that a maximum of nine organisations will be funded.

How much can you apply for?

The maximum grant for the Enfield Community Grants Programme is £20,000. This must cover all the costs of the project.

You should work out your costs carefully – you may need to make estimates but you should ensure that these are as accurate as possible to ensure grants can be given to as many organisations as possible.

Check the expenditure figures you have included in your project budget carefully – those that add up to more than the requested funding will automatically be assessed as **ineligible**.

Payment arrangements

The programme will operate a staged payment model. Organisations will receive payments in four instalments:

| | |
|-------|---|
| * 25% | Paid to grant recipients on signing a grant agreement |
| 25% | Paid when grant recipients can demonstrate actual spend (defrayal) of 25% of the total grant amount |
| 25% | Paid when grant recipients can demonstrate actual spend (defrayal) of 50% of the total grant amount |
| 25% | Paid at the end of the project on the final submission of actual expenditure reports |

* Subject to conditions of Grant.

Please note: London Councils is generally unable to recover any Value Added Tax (VAT) charged. Therefore, the maximum sum stated in the project specifications listed above includes any VAT or other taxes charged. Under the provision of item 5A to group 6 of schedule 9 of the VAT Act 1994, the supply of education or vocational training funded by London Councils, and the supply by the person providing that education or training, of any goods or services essential to that provision, is an exempt supply for VAT purposes. In addition, the maximum sum stated in the project specification should include provision for direct costs to participants such as childcare, travel, subsistence, or participant incentives.

Direct and indirect costs

There is a distinction between direct and indirect costs:

| | |
|-----------------------|---|
| Direct costs | Are costs which are directly related to activity supported by an ESF project e.g. salaries of staff directly engaged on ESF activity, participant costs such as allowances, childcare costs and other costs such as stationery and consumables. |
| Indirect costs | Costs that cannot be connected directly to project activity and which are difficult to attribute to the project e.g. shared organisational costs, telephone costs, gas, electricity and water. Indirect costs will be calculated at a flat rate of 15% of eligible direct staff costs |

What can the grants pay for?

Whatever you include in your budget must be essential to the project. Costs must be based on actual eligible expenditure which can cover staff, participant and other costs.

All costs must be eligible under ESF rules. Please refer to the [London Councils Eligible Expenditure guidance](#).

Staff costs (Direct)

In this section of the application form you should provide details of all the costs that relate to staffing your project. List the job titles of the staff members involved and a short explanation of how the cost was calculated. If there are any other costs relating to staff (e.g. travel, subsistence etc.) you should include them in this section. You should give a brief explanation of how you calculated your costs, to enable assessors to clearly understand what is being applied for. For example:

| Item | Calculation | Amount |
|---------------------------|---|--------|
| Trainer | 5 hrs per month x 9 months x £16 per hr | £720 |
| Travel to outreach centre | 1 person x £3 x 2 per week x 34 weeks | £204 |

- ✓ Administrative staff
- ✓ Book keeping
- ✓ Business counselling
- ✓ Counselling and guidance
- ✓ Project manager
- ✓ Project officer
- ✓ Office manager
- ✓ Outreach staff

- ✓ Project co-ordinator
- ✓ Staff recruitment
- ✓ Staff training
- ✓ Staff travel and subsistence
- ✓ Trainer
- ✓ Tutor
- ✓ Volunteers' expenses
- ✓ Work experience co-ordinator

If a staff member is working full time on ESF activity the organisation should claim actual salary costs for the time they are employed on the project. If a staff member only spends a proportion of their time working on the project, claims should be based on actual salary costs relating to time spent on the ESF project.

Timesheets must be kept and the following calculations should be used to calculate the hourly rate:

- work out how many hours they work in a year. This is 52 weeks multiplied by the number of days they work per week (e.g. 5 days), less the number of days of annual and public holidays they are entitled to, multiplied by the number of hours they work each day; and
- Divide their annual salary by the number of hours worked as above to establish their hourly rate.

Claims for ESF should then be based on the number of hours worked on ESF multiplied by the hourly rate.

It is expected that external trainers will be used to deliver project activities. Trainers should be suitably qualified to deliver the training and evidence of the trainer's qualification(s) must be retained on project files. The costs of training in connection with ESF activity can be claimed, although it is expected that all organisations who submit an application are in a position to deliver the project. Staff training costs can be claimed only if an individual has specific needs for training that could not have been identified before the project began. This needs to relate to the acquiring of specialist knowledge.

Enfield Council is an accredited London Living Wage friendly funder/employer and pays all directly employed and agency staff the London Living Wage. The Council views the Living Wage as a policy priority and as such all contracts tendered and grants awarded will be required to pay the London Living Wage.

Participant costs (Direct)

In this section of the application form you should provide details of all the costs relating to items that you will provide to participants. For example, childcare, out of pocket travel costs, allowances, refreshments, equipment that participants may need for training (e.g. protective clothing), and so on. All entries should be itemised, and calculations shown to explain the costs. For example:

| Item | Calculation | Amount |
|---------------------------|---------------------------------------|--------|
| Childcare/carer allowance | £50 per week x 7 people x 5 weeks | £1,750 |
| Travel | 10 people x £5 x 3 per week x 5 weeks | £750 |

London Councils expects all projects to provide child or dependent care for participants as required to enable them to access the programme.

- | | |
|------------------|----------------------|
| ✓ Childcare/care | ✓ Training allowance |
| ✓ Subsistence | ✓ Travel costs |

You will also be required to provide specific evidence and confirmation relating to participant costs as outlined in the London Councils Eligible Expenditure guidance.

Other costs (Indirect)

In this section of the application form you should provide details of any other costs of your project, which do not relate to staff or participants. This will include other direct and indirect costs of the project, for example, small items of equipment, exam fees, publicity materials, postage, photocopying etc. Indirect costs, which are shared organisational costs e.g. rent, utilities, that cannot be connected directly to project activity and which are difficult to attribute to the project may be claimed but must be apportioned appropriately. Indirect project costs cannot represent more than 15 per cent of the proposed eligible staff costs.

- ✓ Advertising and promotion
- ✓ Participant equipment and clothing
- ✓ Cleaning
- ✓ Consultancy
- ✓ Copier rental
- ✓ Depreciation of owned buildings
- ✓ Depreciation of owned equipment
- ✓ Small equipment (under £1,000)
- ✓ Exam fees
- ✓ Operating equipment lease
- ✓ Postage
- ✓ Professional fees and costs
- ✓ Rent and/or room hire
- ✓ Insurance
- ✓ Service charges
- ✓ Stationary and office supplies
- ✓ Telephones
- ✓ Utilities

Shared Organisational Costs

Indirect costs or overheads, which are shared organisational costs, that cannot be connected directly to project activity and which are difficult to attribute to the project may be claimed but **cannot account for more than 15 per cent of the eligible direct staff costs of a project.**

If you expect to incur any indirect costs the preferred methodology for their estimation is the ratio of ESF staff time against total available staff time (see table below). If successful in your application, programme officers will ask you to provide your method of calculation for other costs, please therefore keep a full record of this.

| Indirect Cost | Basis of estimating yearly cost |
|----------------------|---|
| Utilities £288.90 | Annual expected cost £9,000 – 3 quarters = £6,750. ESF staff time/Total available staff time is 780/1820 = 4.28% |
| Accommodation £1,284 | Annual expected cost £40,000 – 3 quarters = £30,000. ESF staff time/Total available staff time is 780/1820 = 4.28% |

What the Community Employment grant will not pay for

The grant cannot be spent on items of expenditure that are not eligible under ESF regulations. It should not be used to pay for any costs that are not related to your project. Nor should it be spent on staff costs for people that are on your management committee or board. There are also a number of things (listed below) that ESF rules will not allow us to pay for.

Ineligible costs:

- ✗ Purchase of furniture, vehicles and equipment (other than small items of equipment)
- ✗ Purchase of second hand equipment
- ✗ Bank debit charges
- ✗ Legal fees
- ✗ Fines, financial penalties and expenses arising from litigation
- ✗ Expenditure relating to venture capital, loan and guarantee funds
- ✗ Redundancy costs
- ✗ Any expenditure that does not clearly relate to the project
- ✗ Any expenditure which is not supported by evidence.

Evidence and Record Keeping

While delivering your project, you must keep evidence of all project expenditure you claim for and how your costs were calculated – this evidence will be required for you to claim your project funding. Projects will be funded on the basis of actual costs and all funded organisations are required to maintain records of actual grant expenditure to ensure a full audit trail. Therefore, all funded organisations need to keep copies of all invoices, timesheet, receipts, copies of cheques and bank statements pertaining to their project, as evidence of expenditure.

Under no circumstance should members of funded organisations use their own money to pay for project related items and then be reimbursed. This will be classed as ineligible expenditure.

When paying for items related to your project e.g. computers from a high street retailer, the copy of the cheque presented as evidence of payment should show that the payment was made to that retailer only by the grant funded organisation and no one else, or it will be classed as an ineligible expenditure.

NB failure to do this will result in non-payment of your second or third stage of payment or monies being reclaimed. A final payment of 25 per cent is made in arrears, upon successful submission of all monitoring reports and financial evidence.

You will be issued with further guidance on record and evidence keeping if your project application is successful. However, please note that all successful projects will be required to keep all records until 31 December 2030.

14. Assessment process

Assessment against criteria

The selection process will be open, objective and fair.

All applications submitted under the application round will be carefully assessed against the criteria set out in this application prospectus and the application form. Applications will also be assessed in terms of outputs, track record and value for money e.g. assessors will check your budget to see that you have given due consideration to staff numbers and participant costs as well as any training fees or other external consultancy.

Funds are limited and not all projects that apply will receive funding. It is therefore important that you demonstrate in your project application how your project meets the criteria laid out in this prospectus.

Once the assessor is satisfied that your project and organisation is eligible for support, the rest of your application will be scored by awarding points against each of the assessment questions - the application form sets out the points available for each question.

Instructions on completing the application form are included with each question and should be read carefully before you complete your answer.

Applications will be subject to a minimum quality threshold on the application as a whole: there is a maximum of **100** points available and all projects must achieve at least a score of **51** in order to be considered for funding. Projects that score lower than **51** will not be funded, even if there is sufficient funding remaining.

Where the total value of grants requested by fundable organisations exceeds the available funding, priority will be given to organisations that score **75** points or more.

The London Borough of Enfield reserves the right to offer smaller grants than requested by organisations that score between **51 and 75** points. This approach will be taken to ensure that the funding available is distributed to a wide range of eligible organisations.

Each application will be scored separately by two independent assessors, generally a representative from the borough and London Councils. The assessors scores will then be moderated to determine a final score.

Applications will also be assessed against a project's ability to promote equality and social inclusion as well as sustainable development (Section 11). Applications will be rated weak/average/strong. Where necessary these ratings will be used to decide between equal scoring applications.

Your application can only be assessed on the information stated in it. You must assume that the scorers know nothing about your organisation, or the needs of your community, so be clear about what activities you plan to deliver and for whom. There will be no cross referencing of answers so each answer should be completed fully, as responses for any one question cannot be secured from an answer included for any other question. **Please note to be considered for funding, your application must score above 50 per cent of the total available marks.**

Health Checks

As part of the assessment process, the London Borough of Enfield reserves the right to conduct health checks on organisations. This may include requests for further information or details about your organisation including but not limited to the following categories:

- Management, management structures, staffing and organisation
- Conflict(s) of interest
- Public accountability
- Employment practices, office policies and procedures
- Funding arrangements
- Provision of services

If your organisation is selected you will be contacted by a member of the London Borough of Enfield's Third Sector & Partnerships Development Team to arrange a mutually acceptable time to meet.

References

London Councils intends to request references for applicant organisations through its network of borough grants officers, to verify whether the organisation has experience of working within the Borough and with the participant group relevant to this application.

If you do not consider that the relevant borough officer has sufficient knowledge of your organisation to provide this reference, please supply details of an alternative referee in the application form.

The internal appraisal panel

Following scoring and moderation, an internal appraisal panel will convene to review each project application and the proposed moderated scores. The panel is generally comprised of senior officers from London Councils' Grants and Community Services Division and Enfield Councils Third Sector & Partnerships Development Team. Other officers may be invited to join the appraisal panel should the number of applications warrant this.

In addition to the moderated scores, the panel will consider further factors such as previous experience, value for money and the project's fit within London Councils' ESF Programme. This will ensure that projects funded under the ESF Programme collectively meet the whole range of target groups, and that there is a good mix of projects and a fair spread of projects across Enfield related to need. The panel will consider the geographic/borough coverage of the provision and coverage could be a deciding factor in awarding funding.

The panel will recommend the successful applicant/s to an external panel.

External panel

The external panel will provide the final judgement on applications. This panel is comprised of:

- a representative(s) from a suitable general voluntary sector umbrella organisation
- Enfield Council representative(s)
- representative(s) of the Intermediate Body for ESF in London (the GLA's European Programmes Management Unit); and
- officers from the internal panel.

The panel's judgement will be based on the information provided by the internal panel. This is to ensure that the projects chosen can meet ESF and London Councils' corporate aims and objectives. It will also help to ensure that there is no duplication of activities.

All applicants will be informed of their scores and will be provided with feedback on their application.

Right to Reply

Applicants will be given 10 working days to submit a Reply in respect of the decision made by the external panel. Please note we will only accept one Reply per application submitted. **New information relating to the application will not be considered.**

Due to the limited funding available, it is likely that several good proposals will not be successful. Most disappointed applicants think that their application deserved a higher score. The Right to Reply process offers applicants the opportunity to request clarification or a further explanation of a score. A Reply based on the fact that the project has been successful in the past will not be investigated. London Councils ESF officers will consider any responses received and will update the external panel accordingly.

The Pre-agreement meeting

The Pre-agreement meeting will take place between the provider, a London Councils ESF officer and a representative from the borough providing match funding. The meeting aims to outline the London Councils' project delivery process including:

- Roles and responsibilities between London Councils and your project
- Review working relationships with project sub-partners (include SLAs)
- Confirmation of the outputs and results your project will deliver
- Agreement of the Project Delivery Schedule
- Review Risk Register and intended actions to mitigate and manage risks
- Explain London Councils' ESF monitoring and payment arrangements

- Confirm evidence requirements for expenditure, outputs and results
- Confirm evaluation requirements
- Confirm publicity requirements
- Confirm Data Protection requirements

At the meeting, a list of actions for the provider will be drawn up. These actions must be completed before your organisation is issued with a funding agreement. These actions will include, but are not limited to:

- Your project delivery schedule profile signed and submitted
- Your bank details template completed and stamped
- Your cash flow forecast completed
- Clarification of any outstanding due diligence issues or issues identified in your application
- Signed copies of the Service Level Agreements between you and your sub-partners submitted.

15. Publicity arrangements

ESF funding carries requirements to adhere to the ESF 2014-20 publicity guidance:

- ensure that potential and actual participants, project partners, and employers, are aware of the source of support
- publicise project successes; and
- participate as far as is practicable in London and national ESF publicity initiatives, including providing information for public directories of projects.

For example, London Councils and ESF logos should be present on all information and forms given to participants and included in all project publicity produced. Further guidance on publicity will be given to successful applicants.

All publicity materials developed to advertise or promote the project will need to be made available for inspection and approved prior to use.

For more detail on ESF publicity requirements, please visit

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/634288/ESIF_Branding_and_Publicity_Requirements.pdf

16. ESF Programme Guidance Documents

This section provides the latest information and guidance documents to help you understand how to develop and deliver ESF compliant projects. All providers should acquaint themselves with these guidance documents.

London Councils specific guidance

[London Councils ESF Eligibility Guidance V2.0 June 2017](#)

[London Councils Eligible Expenditure guidance](#)

The latest version of the National ESF guidance below can be found at the following site:
<https://www.gov.uk/government/publications/european-structural-and-investment-funds-programme-guidance>

Background Information on European Social Funds

[ESF Operational Programme for England 2014 to 2020](#)

The European Social Fund Operational Programme sets out the strategy and priorities for use of the Fund to support the Europe 2020 strategy for smart, sustainable and inclusive growth.

[ESIF Strategy](#)

This document outlines; London's key areas for ESF (and ERDF) investment against its Jobs and Growth Plan priorities.

Project Delivery Information

Annex A

Gateway questions:

| Gateway Questions | |
|-------------------|--|
| A | Does your organisation have a Constitution, Memorandum of Association or Articles of Association? |
| B | Was your organisation constituted before 1 st August 2016? |
| C | Does your organisation have a bank account in the organisation's name that requires two signatories? |
| D | Does your organisation have a copy of its most recent signed accounts (audited accounts where required)? |
| E | Are you organisationally a going concern? |
| F | Is your organisation constituted to work in and based in the London Borough of Enfield? |
| G | Did your organisation have an income of less than £150,000 in the 2017-2018 financial year OR Did your organisation work exclusively with people with a disability and have an income of less than £250,000 in the 2017-2018 financial year? |
| H | If your organisation is based in or using Enfield Council buildings do you have an appropriate property arrangement in place for the duration of the project? |
| I | Are you a debtor to Enfield Council? |
| J | Does your organisation have an Equal Opportunities Policy? |
| K | Does your organisation have a Sustainable Development Policy? |
| L | Does your organisation have a Health & Safety Policy? |
| M | Does your organisation have a Complaints Policy? |
| N | Do you commit to taking out the appropriate levels of insurance required to deliver the project? |
| O | <p>The London Borough of Enfield is an accredited London Living Wage friendly funder/employer and pays all directly employed and agency staff the London Living Wage. The Council views the Living Wage as a policy priority and as such all contracts tendered and grants awarded will be required to pay the London Living Wage.</p> <p>Does your organisation commit to paying directly employed and agency staff the London Living Wage?</p> |
| P | Will you provide the specified services of the project to residents of the London Borough of Enfield where you are applying to deliver a project in and detailed in the specification? |
| Q | Can you provide evidence that your organisation has policies in place that adhere to the data protection act? |

Failure to provide any of the documents or other evidence specified may result in your application not being scored.

Should your application be successful, you will need to provide your organisation's child and adult safeguarding policies for London Councils approval. This is a condition of grant funding
