

9 MARCH 2017

Retiming - driving change together

London Lorry Control Scheme Review, Operators Workshop,
Rob Belton, Director Business Regulatory Consultancy,
Ashford's LLP

Retiming to avoid congested times

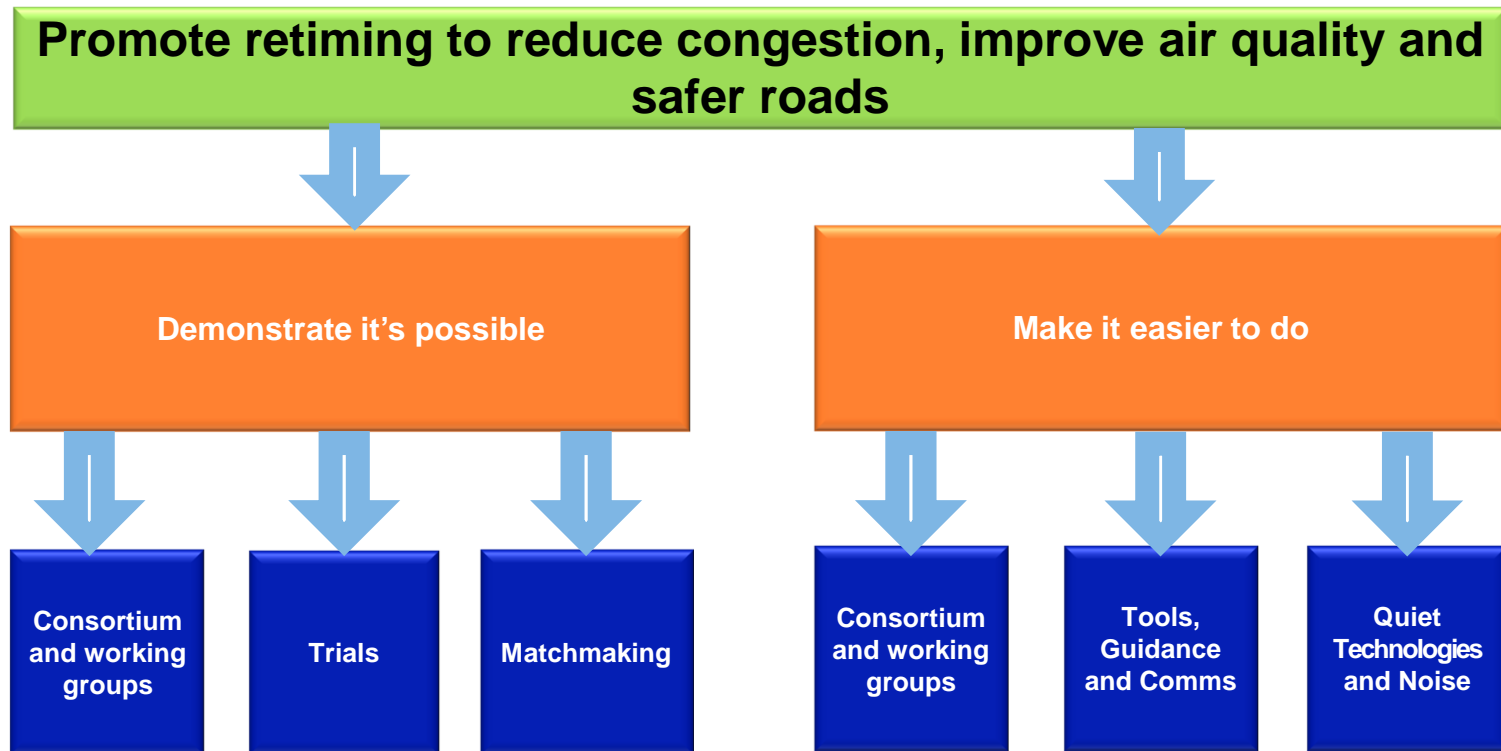

The Retiming Deliveries Consortium

- Supports TfL programme
- Set up in Oct 2013 to lead the way for retimed deliveries
- Reviewed delivery times at stores
- Investigated internal operation
- Promote and encourage retiming through guidance, tools and engagement
- Expand the collaborative approach

Retiming

Driving change

- Six meetings held to widen the approach with others
- Representation across a range of sectors
- Open and honest discussion
- Test future initiatives and products
- Provide feedback and help to drive change
- Opportunity for businesses to liaise with boroughs
- Share experiences and knowledge
- Address specific issues in sub groups
- Quiet Cities – first global summit

Working groups:

34 businesses
9 operators
18 boroughs
9 other organisations

Current progress

- Across 33 local authorities
- With 25 businesses
- 77 consortium sites
- 216 Matchmaking and Working Group sites
- Tools & guidance underway including:
 - Quiet deliveries training pack
 - Selecting quieter equipment
 - Carrying out noise assessments

**293
premises
= 106,002
deliveries**

7 Who's talking about retiming?

Shared outcomes

LLCS

Influences route taken to destination

Promotes less disruptive routes

Protects residents from disturbance
