

Borough Overview

Measure	Description	Borough	London
Business count	The number of registered business in the borough.	17,070	568,200
Business density	The number of registered businesses per resident employee. A score of 1 indicates an equal number of business and employees based in the borough. A low score suggests that resident employees are out-commuting or work for a few large companies, a high score indicates low levels of out-commuting and/or smaller businesses.	0.14	0.21
Micro-share	The share of registered business that are micro-businesses - defined as those businesses that have between 0-9 employees.	90%	87%
Rateable properties per business	The number of rateable properties per registered business. A low ratio indicates that there are more businesses than rateable properties in the borough suggesting smaller businesses in industries that may not have a fixed place of work e.g. consultancy or construction.	0.38	0.48
GVA per business (£m)	The borough's total economic output (Gross Value Added) per registered business.	0.46	0.75
Business diversity	A measure of the industry concentration of the total business count. Higher scores indicate the business population is more concentrated in a few industries.	0.31	0.32
Complexity	<p>The complexity score measures the number of industries in which the borough 'punches above its weight' i.e. where the share of businesses in that industry exceeds the borough's share of all businesses in the country. The borough holds a 'comparative advantage' in these industries.</p> <p>The final score is the count of industries in which the borough has a comparative advantage, scaled by how widespread the industry is nationally, as measured by the count of local authorities that also punch above their weight in that industry.</p> <p>A score of 0 indicates no industry specialism. Higher scores indicate more specialist and unique economic activity.</p>	0.57	0.90

Business count and areas of comparative advantage

The charts below illustrate the business count and relative comparative advantage of businesses in Bromley by industry. The different colours represent the broad industry sectors whereas the smaller rectangles within each coloured rectangle reflect industries that make up each sector¹. The area of each rectangle represents the relative size of each element in the borough's business base.

The image to the left displays Bromley's business count data. The image to the right highlights the comparative advantage of various sectors within the borough. The comparative advantage considers whether an industry business count is large relative to its own business base and the size of the industry nationally. Larger rectangles imply more of a sectoral strength and opportunities for future growth.

Sector Rank	Business count	Comparative advantage
1	Professional, scientific and technical	Administrative and support service
2	Wholesale and retail trade	Professional, scientific and technical
3	Construction	Manufacturing
4	Information and communication	Information and communication
5	Human health and social work	Construction

The professional, scientific and technical sector is the most prominent in Bromley when measured by total business count with strong representation from management consultancies, architectural and engineering firms. Wholesale and retail trade, construction and professional, information and communication are also well represented in Bromley's business base.

Bromley has 11 industries within administrative and support service activities that hold a relative comparative advantage over local authorities nationally.

¹ Industries defined according to their 3-digit Standard Industrial Classification code

Top industries

Industry	Total borough business count	Total share of borough business count
70229 : Management consultancy activities	1395	10%
62020 : Computer consultancy activities	1230	9%
82990 : Other business support service activities	595	4%
47910 : Retail sale via mail order houses or via Internet	410	3%
43210 : Electrical installation	365	3%

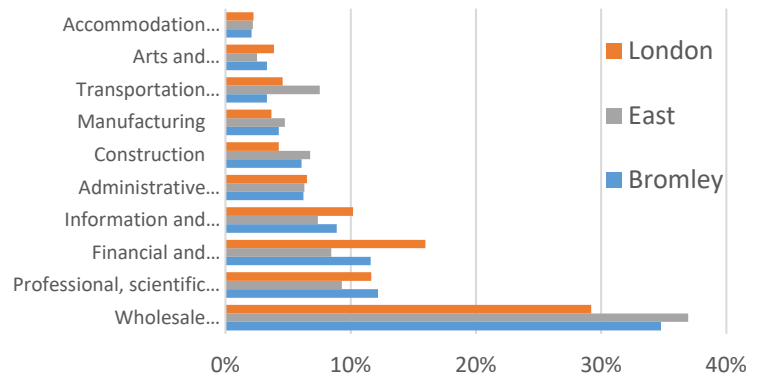

Management consultancy activities followed by computer consultancy activities have the highest number of businesses in terms of local units in Bromley. Together the top five industry groupings account for 29% of all registered businesses in the borough.

The human health and social work sector is the largest, accounting for 16% of all employment in the borough.

Top 10 sectors by % of total employment

Clustering

Sector	Industry	Cluster score	Business count across borough	MSOA Dominance ²	Dominant MSOA name	Knowledge Intensive industry	Share of micro-business
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale via mail order houses or via Internet	1.835	410	78%	Bromley 037	No	99%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale of clothing in specialised stores	0.105	95	37%	Bromley 008	No	68%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale of cosmetic and toilet articles in specialised stores	0.091	20	75%	Bromley 008	No	60%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale of watches and jewellery in specialised stores	0.078	25	60%	Bromley 008	No	100%
Accommodation and food service activities	Licensed restaurants	0.072	205	15%	Bromley 006	No	66%

A business cluster can be defined as a geographic concentration of related businesses in a particular field. Business clusters are known to increase competition and productivity. There are numerous famous business clusters around London such as the tailors situated on Saville Row to the jewellery shops in Hatton Gardens. The table above is a snapshot of the geographical clusters³ present in Bromley.

The most geographically clustered industries in Bromley are outlined in the table above. The industry with the highest cluster score is retail sale via mail order houses or via internet with a score of 1.84. More specifically, of the 410 local business units, 320 (78%) of them are located in one MSOA indicating that there exists a geographical cluster of online retail businesses in Bromley 037. Additionally, four out of the five most geographical clusters are within retail trade and are located in either Bromley 008 or Bromley 037.

The clustering table also identifies whether the industry is classified as Knowledge Intensive⁴ and the share of businesses in the industry operating in the borough that are defined as micro-businesses (fewer than 10 employees).

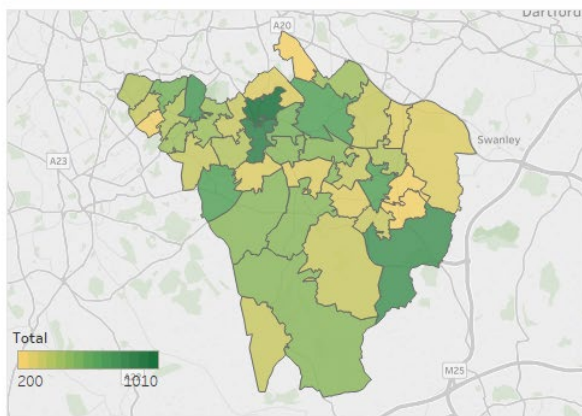

² Proportion of industry local units found in the dominant MSOA.

³ The cluster score is calculated as the proportion of businesses with the same 5-digit SIC code operating in the same MSOA divided by the sum of all the businesses with the same 5-digit SIC code in the borough. The higher the score the more geographically clustered the industry.

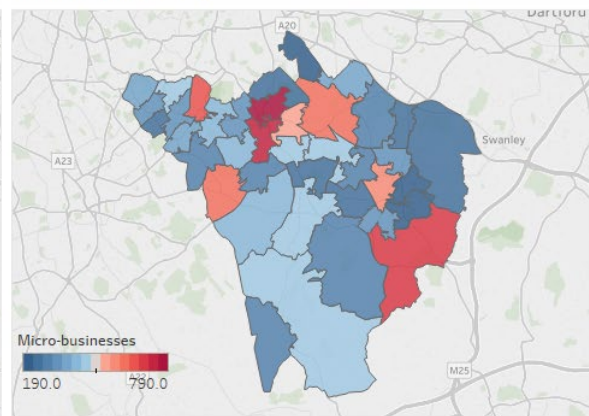

⁴ The Office for National Statistics has categorised certain Standard Industry Classification (SIC) codes as Knowledge Intensive service industries. This categorisation is based on the proportion of tertiary-educated people employed in the industry.

Mapping the business base

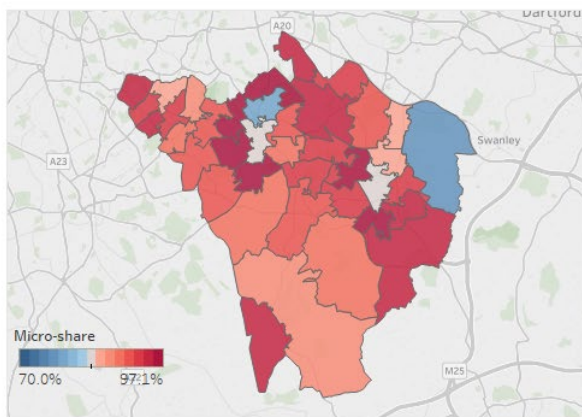

Local Units

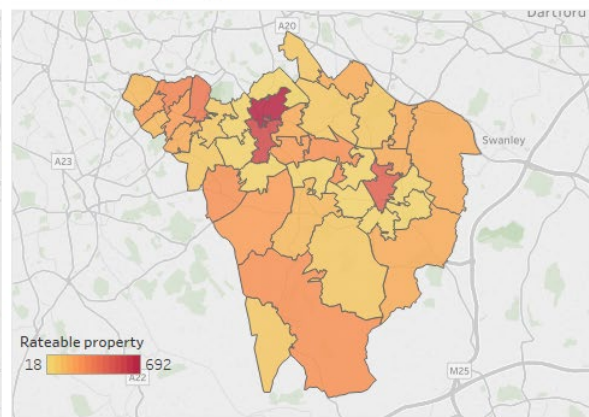

Micro-businesses

Micro-share

Rateable property

Local units: There are 17,070 businesses (in local units) across Bromley. As illustrated on the map in the left corner, the businesses are relatively evenly spread out across the borough with a slightly higher density of businesses located in the north east. The MSOA with the highest concentration of businesses is Bromley 008 which contains 6% (1,010 local units) of all local units in Bromley.

Micro-businesses: Of the 17,070 businesses located in Bromley, 15,290 are microbusinesses with 0-9 employees (90%). Unsurprisingly, the MSOA with the highest number of microbusinesses is Bromley 008 with 790 local units. The map in the top right corner displays the distribution of micro-businesses across Bromley. Similar to the local units map to the left, there is a high concentration of micro-businesses in the north east of the borough and in the south west.

Micro-share: The average share of microbusinesses across MSOAs in Bromley is 90%. Bromley 011, 025 and 035 have the highest share of microbusinesses at 97%. In contrast, Bromley 008 who have the highest number of microbusinesses in local units only have a 78% share of microbusinesses because most of the larger businesses are also located in this MSOA.

Rateable property: Bromley has 6,500 rateable properties the majority of these properties are located in Bromley 008. This aligns with other results as Bromley 008 also has the highest number of businesses local units.

MSOA reference map

The map below indicates the three-digit reference number for each of Bromley's MSOAs.
