

Haringey

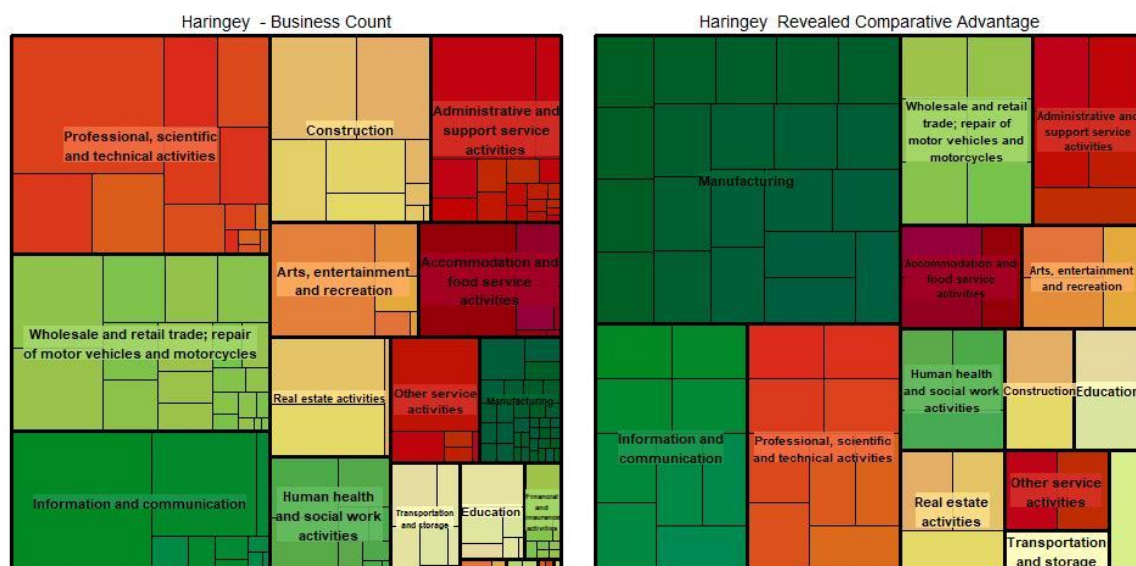

Borough Overview

Measure	Description	Borough	London
Business count	The number of registered business in the borough.	13,200	568,200
Business density	The number of registered businesses per resident employee. A score of 1 indicates an equal number of business and employees based in the borough. A low score suggests that resident employees are out-commuting or work for a few large companies, a high score indicates low levels of out-commuting and/or smaller businesses.	0.16	0.21
Micro-share	The share of registered business that are micro-businesses - defined as those businesses that have between 0-9 employees.	91%	87%
Rateable properties per business	The number of rateable properties per registered business. A low ratio indicates that there are more businesses than rateable properties in the borough suggesting smaller businesses in industries that may not have a fixed place of work e.g. consultancy or construction.	0.49	0.48
GVA per business (£m)	The borough's total economic output (Gross Value Added) per registered business.	0.46	0.75
Business diversity	A measure of the industry concentration of the total business count. Higher scores indicate the business population is more concentrated in a few industries.	0.25	0.32
Complexity	<p>The complexity score measures the number of industries in which the borough 'punches above its weight' i.e. where the share of businesses in that industry exceeds the borough's share of all businesses in the country. The borough holds a 'comparative advantage' in these industries.</p> <p>The final score is the count of industries in which the borough has a comparative advantage, scaled by how widespread the industry is nationally, as measured by the count of local authorities that also punch above their weight in that industry.</p> <p>A score of 0 indicates no industry specialism. Higher scores indicate more specialist and unique economic activity.</p>	0.71	0.90

Business count and areas of comparative advantage

The charts below illustrate the business count and relative comparative advantage of businesses in Haringey by industry. The different colours represent the broad industry sectors whereas the smaller rectangles within each coloured rectangle reflect industries that make up each sector¹. The area of each rectangle represents the relative size of each element in the borough's business base.

The image to the left displays Haringey's business count data. The image to the right highlights the comparative advantage of various sectors within the borough. The comparative advantage considers whether an industry business count is large relative to its own business base and the size of the industry nationally. Larger rectangles imply more of a sectoral strength and opportunities for future growth.

Sector Rank	Business count	Comparative advantage
1	Professional, scientific and technical	Manufacturing
2	Wholesale and retail trade	Information and communication
3	Information and communication	Professional, scientific and technical
4	Construction	Wholesale and retail trade
5	Administrative and support services	Accommodation and food services

The professional, scientific and technical sector is the most prominent in Haringey when measured by total business count with strong representation from management consultancies, specialised design, architectural and engineering firms. Information and communication and wholesale and retail firms are also well represented in Haringey's business base.

Haringey has 21 industries within manufacturing that hold a relative comparative advantage over local authorities nationally.

¹ Industries defined according to their 3-digit Standard Industrial Classification code

Top industries

Industry	Total borough business count	Total share of borough business count
70229 : Management consultancy activities	855	8%
62020 : Computer consultancy activities	595	6%
82990 : Other business support service activities	575	6%
41202 : Construction of domestic buildings	325	3%
90030 : Artistic creation	325	3%

The wholesale and retail sector is the largest, accounting for 19% of all employment in the borough.

Top 10 sectors by % of total employment

Clustering

Sector	Industry	Cluster score	Business count across borough	MSOA Dominance ²	Dominant MSOA name	Knowledge Intensive industry	Share of micro-business
Arts, entertainment and recreation	Gambling and betting activities	0.146	95	37%	Haringey 007	No	76%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale of clothing in specialised stores	0.139	75	40%	Haringey 016	No	78%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail sale of footwear in specialised stores	0.119	20	75%	Haringey 016	No	60%
Professional, scientific and technical activities	Management consultancy activities (other than financial management)	0.108	855	8%	Haringey 034	Yes	99%
Construction	Development of building projects	0.107	200	17%	Haringey 029	No	98%

A business cluster can be defined as a geographic concentration of related businesses in a particular field. Business clusters are known to increase competition and productivity. There are numerous famous business clusters around London such as the tailors situated on Saville Row to the jewellery shops in Hatton Gardens. The table above is a snapshot of the geographical clusters³ present in Haringey.

The most geographically clustered industries in Haringey are outlined in the table above. The industry with the highest cluster score is gambling and betting activities with a score of 0.15. More specifically, of the 95 local business units, 35 of those (37%) of them are situated in one MSOA indicating that there exists a geographical cluster of gambling and betting activities in Haringey 007. Additionally, there is a concentrated geographical cluster of retail businesses in Haringey 016.

The clustering table also identifies whether the industry is classified as Knowledge Intensive⁴ and the share of businesses in the industry operating in the borough that are defined as micro-businesses (fewer than 10 employees).

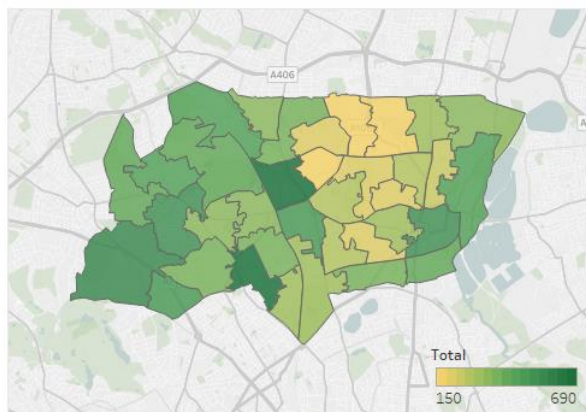

² Proportion of industry local units found in the dominant MSOA.

³ The cluster score is calculated as the proportion of businesses with the same 5-digit SIC code operating in the same MSOA divided by the sum of all the businesses with the same 5-digit SIC code in the borough. The higher the score the more geographically clustered the industry.

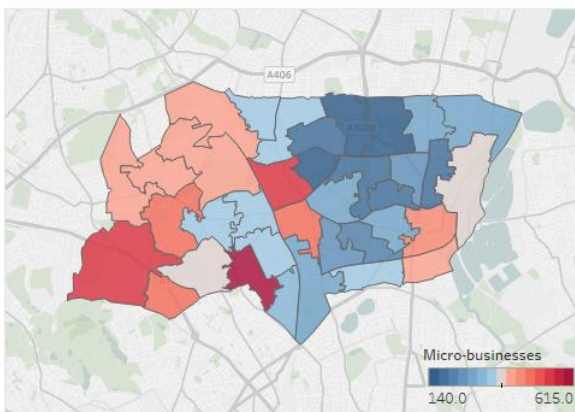

⁴ The Office for National Statistics has categorised certain Standard Industry Classification (SIC) codes as Knowledge Intensive service industries. This categorisation is based on the proportion of tertiary-educated people employed in the industry.

Mapping the business base

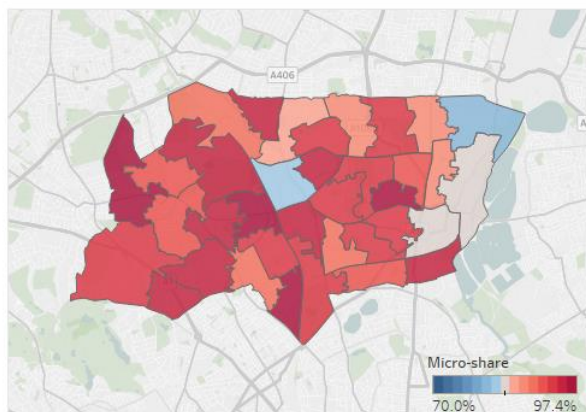

Local Units

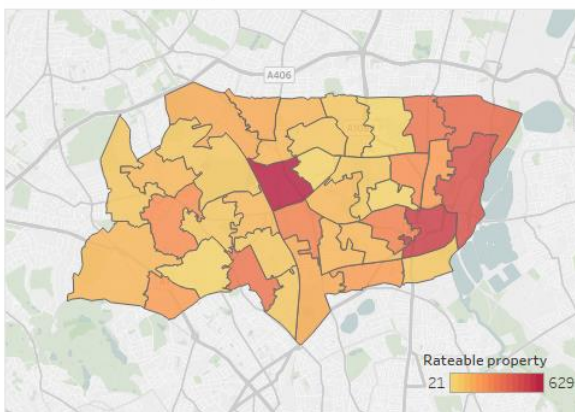

Micro-businesses

Micro-share

Rateable property

Local units: There are 13,200 businesses (in local units) across Haringey. As illustrated on the map in the left corner, the businesses are relatively evenly spread out across the borough with a slightly higher density in eastern parts of the borough. The MSOA with the highest concentration of businesses is Haringey 034 which contains 5% (690 local units) of all local units in Haringey.

Micro-businesses: Of the 13,200 businesses located in Haringey, 12,000 are microbusinesses with 0-9 employees (91%). Unsurprisingly, the MSOA with the highest number of microbusinesses is Haringey 034 with 615 local units. The map in the top right corner displays the distribution of micro-businesses across Haringey. Similar to the local units map to the left, there is a high concentration of micro-businesses in the eastern parts of the borough.

Micro-share: The average share of microbusinesses across MSOAs in Haringey is 91%. Haringey 018, 020 and 036 have the highest share of microbusinesses at 97%. In contrast, Haringey 034 who have the highest number of microbusinesses in local units only have an 89% share of microbusinesses because most of the larger businesses are also located in this MSOA.

Rateable property: Haringey has 6,500 rateable properties the majority of these properties are located in Haringey 016 and 025. These MSOAs have the second and fourth highest business count across the entire borough.
