A business cluster can be defined as a geographic concentration of related businesses in a particular field. Business clusters are known to increase competition and productivity. There are numerous famous business clusters around London such as the tailors situated on Saville Row to the jewellery shops in Hatton Gardens. The table above is a snapshot of the geographical clusters³ present in Wandsworth.

The most geographically clustered industries in Wandsworth are outlined in the table above. The industry with the highest cluster score of 0.392 is wholesale of fruit and vegetables. More specifically, of the 80 local business units, 70 of them (88%) are located in the same MSOA indicating that there exists a cluster of fruit and vegetable wholesalers in Wandsworth 002. Additionally, there is a concentrated geographical cluster of flower and plant wholesalers and fruit and vegetable retailers in Wandsworth 002.

The clustering table also identifies whether the industry is classified as Knowledge Intensive⁴ and the share of businesses in the industry operating in the borough that are defined as micro-businesses (fewer than 10 employees).

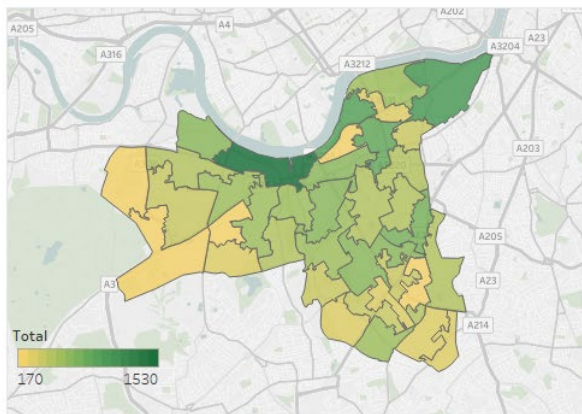

² Proportion of industry local units found in the dominant MSOA.

³ The cluster score is calculated as the proportion of businesses with the same 5-digit SIC code operating in the same MSOA divided by the sum of all the businesses with the same 5-digit SIC code in the borough. The higher the score the more geographically clustered the industry.

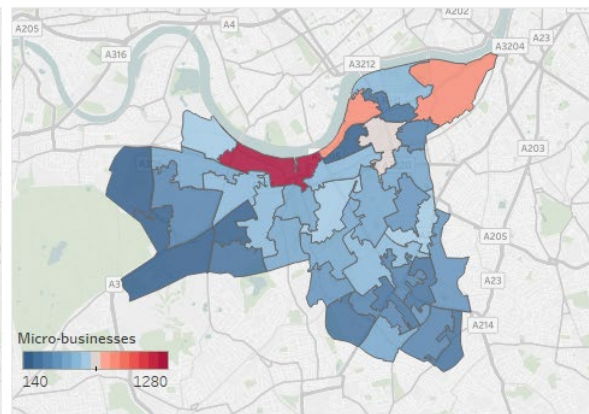

⁴ The Office for National Statistics has categorised certain Standard Industry Classification (SIC) codes as Knowledge Intensive service industries. This categorisation is based on the proportion of tertiary-educated people employed in the industry.
